Booking a Meeting Room Using Zoho One (SaaS)

Aim

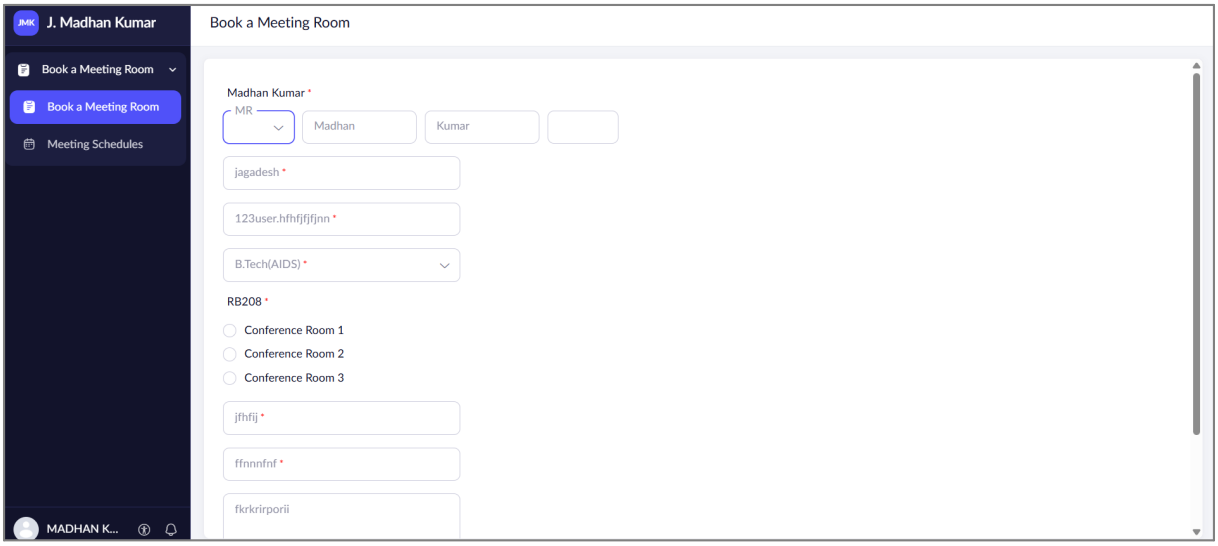

To create a Meeting Room Booking System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Steps / Procedure

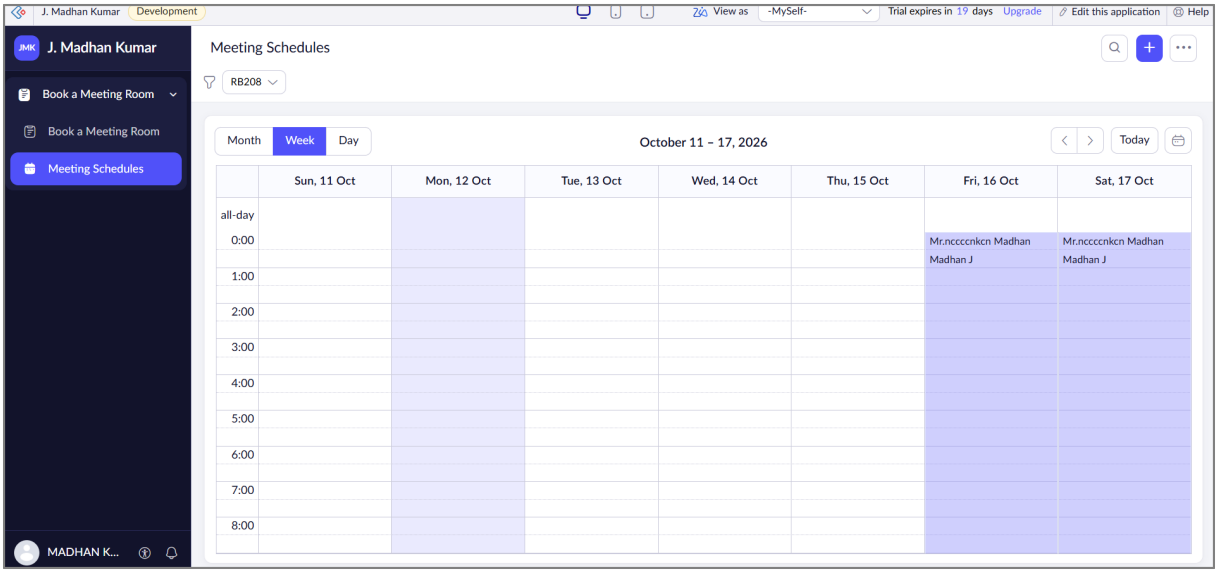

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application for the Meeting Room Booking System.
4. Create a new form named Book a Meeting Room.
5. Add the required fields:
   - Employee Name
   - Employee ID
   - Email Id
   - Department
   - Meeting Title
   - Meeting Room
   - Booking Date
   - Meeting Date
   - Start Time / End Time
   - Number of Attendees
6. Configure the field types according to the data required (Name, Email, Phone, Dropdown, Date, Time, Number, Multi-line text).
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample meeting room booking details into the form.
10. Submit the form and verify that the entered data is stored in the cloud (Meeting Schedules calendar).
11. Test the application by entering different booking details.
12. Verify that the Meeting Room Booking System works successfully as a SaaS application.

Implementation

Input:

Output:

Result

Thus, a Meeting Room Booking System was successfully created using Zoho One and demonstrated as a Software as a Service (SaaS) application.
